

# Use the Help menu

Last Modified on 12/19/2022 12:31 pm EST

On every page in app.knowledgeowl.com, you'll see a **Help** link in the upper right.

Opening that link will open relevant Support resources for the page you're currently viewing. You can also browse or search through our Support knowledge base from there.

If you have a question or a problem you can't find the answer to, use the **Contact** tab within the help widget to reach out to our support owls.

(That help widget is powered by our [Contextual Help Widget](#).)
