An option to *Enable Estimates Tracking* has been added to Service Code setup. When the Enable Estimates Tracking field is set to 'Yes', an *Estimated vs. Actual* tab displays for Proposals.

The image displays two overlapping software windows. The top window, titled 'UPDATE SERVICE CODE', contains a form with various fields. The 'ENABLE ESTIMATES TRACKING' field is highlighted with a red box and has a red arrow pointing to the 'EDIT PROPOSAL - 18153' window below it. The bottom window, titled 'EDIT PROPOSAL - 18153', shows a tabbed interface with 'Estimated vs Actual' selected and highlighted with a red box. Below the tabs is a table with the following data:

SITE ID	QTY	SERVICE CODE	FREQUENCY	ESTIMATE TYPE	EST REVENUE	EST ORDERS/UNITS	UOM	BOOKED	BILLED C
27363	1.00	10 Yard CD Service	2x per week	per month	150.00		Month		88

At the bottom of the 'EDIT PROPOSAL' window are three buttons: 'SAVE', 'PRINT', and 'EMAIL'.
