

# Create and Send a Proposal

Last Modified on 11/15/2024 10:24 am PST

**Pathway:** [Accounts](#) > [Search](#) > [Account \(Customer Service Screen\)](#) > [Orders, Quotes and Contracts](#)

This article details the Add Proposal form available in the *Orders, Quotes and Contracts* section of a site. Proposals are created for a variety of reasons (rate changes, service changes, new services, etc.) and are available to both active and prospect accounts. After a proposal is issued, it is tracked in the following sales CRM tools:

- [Sales Pipeline Summary](#)
- [Sales Pipeline Opportunities](#)

## Create a Proposal

### Settings

The Settings tab establishes the basics of the document and qualifies it as either an 'Opportunity' or 'Quote'. Because a proposal document does not include a signature section it is considered an opportunity and tracked in the Pipeline Opportunities dashboard using the 'Proposal' filter.

### Field Descriptions

Field	Description
-------	-------------

<b>Document Format</b>	<p>Identifies the document's format and determines how/where it will be tracked in the Sales Pipeline CRM tools.</p> <p>Form Format setup is located in <i>Setup &gt; Document Formats &gt; Format</i>.</p>
<b>Document Type</b>	<p>Indicates a reason code for the proposal. <i>Example: Change In Service, New Business, Increase in Service, etc.</i></p> <p>Document Type setup is located in <i>Setup &gt; Document Formats &gt; Type</i>.</p>
<b>Status</b>	<p>Indicates the current status of the proposal and will automatically update if the proposal is sent, viewed or signed in the system. Status options include:</p> <ul style="list-style-type: none"> <li>• <b>Open</b> <ul style="list-style-type: none"> <li>◦ Applies once a proposal is created.</li> <li>◦ 'Open' status allows for edits to fields in the Settings tab.</li> </ul> </li> <li>• <b>Submitted to Client</b> <ul style="list-style-type: none"> <li>◦ Displays after the proposal has been emailed from the system to the customer or prospect.</li> <li>◦ 'Submitted to Client' status allows for edits to fields in the Settings tab.</li> </ul> </li> <li>• <b>Void</b> <ul style="list-style-type: none"> <li>◦ Select Void to indicate the proposal was created in error.</li> <li>◦ 'Void' status prevents edits to fields in the Settings tab.</li> </ul> </li> <li>• <b>Lost</b> <ul style="list-style-type: none"> <li>◦ Select Lost to indicate the proposal was lost (i.e. went with a competitor).</li> <li>◦ 'Lost' status prevents edits to fields in the Settings tab.</li> </ul> </li> </ul>
<b>Source</b>	<p>Indicates how the sale originated (referral, internal, employee, and etc.).</p>
<b>Sales Rep</b>	<p>Identifies the sales representative responsible for the proposal or agreement. Form notifications, dashboard tracking and credit for a sale/approval are sent to the sales representative selected.</p>
<b>Sold By</b>	<p>Identifies who made the sale. Provides flexibility to record who made the sale if it was someone other than the sales representative.</p>
<b>Form Contact</b>	<p>Identifies the account contact the proposal/agreement will be sent to. Account Contacts must be created first or they will not display as a drop down selection.</p> <p><i>Related Article: <a href="#">Add Account Contact</a></i></p>
<b>Linked Leads</b>	<p>Option to link an existing lead service to the proposal/agreement. Linked leads reduces double entry by allowing a user to copy services from the lead to the quote.</p> <p><b>*Important</b> - Leads will continue to populate in the Sales Pipeline - Leads dashboard until linked. Linking to a document closes the lead.</p> <p><i>Related Articles: <a href="#">Add a Lead</a>; <a href="#">Pipeline Leads</a></i></p>
<b>Title</b>	<p>Option to enter the title for the Form Contact.</p>
<b>PO Number</b>	<p>Option to enter a PO number if one exists.</p>

<b>Effective Date</b>	The date proposed services and billing will begin.
<b>Delivery Date</b>	Indicates the customer's preferred date to receive service equipment.
<b>Estimated Close Date</b>	The expected date the sale will close and drives the Sales Pipeline Opportunities dashboard.
<b>Close Probability</b>	Probability of a successful sale (identified by the sales representative).
<b>Term</b>	The initial term length of the service agreement.
<b>Renewal Term</b>	Indicates the automatic renewal term length.
<b>Note</b>	Notes added here display in the Comments section of the proposal.
<b>Delivery Instruction</b>	Internal note that displays on the delivery work order for the driver to see and does not appear on additional service work orders.
<b>Custom Field1 Text</b>	Open field to print additional information not otherwise included on the proposal. Field name can be customized in <i>Setup &gt; Document Format &gt; Formats (Settings tab)</i> .
<b>Payment Required at Customer Signature</b> <i>(Applies to contracts)</i>	<p>Option to require a deposit for services to begin. If a payment is required, the contract can not be saved until payment has been collected using either a bank account or Credit Card. Payment requirement options include:</p> <ul style="list-style-type: none"> <li>• <b>Not Required (default)</b> <ul style="list-style-type: none"> <li>◦ Customer and Sales Rep can sign the contract without collection of a deposit.</li> </ul> </li> <li>• <b>Specific Amount</b> <ul style="list-style-type: none"> <li>◦ Upon signing, the customer will be required to enter a payment using either a bank account or credit card. If selected, a "Required Payment Amount" field is displayed to enter the required amount.</li> </ul> </li> <li>• <b>One Month Recurring Fees Including Taxes and Surcharges</b> <ul style="list-style-type: none"> <li>◦ System calculated based on service rates, and the taxes and surcharges that apply.</li> </ul> </li> <li>• <b>One Month Recurring Fees</b> <ul style="list-style-type: none"> <li>◦ System calculated based on the service rates.</li> </ul> </li> </ul>
<b>Print Est. Surcharge</b>	<p>Option to display estimated surcharges on the printed proposal.</p> <p>Surcharge group must be assigned to site prior to adding services to the proposal or service agreement. To re-calculate the estimated surcharges the service rate must be updated or removed and re-added to the form.</p>
<b>Print Est. Tax</b>	Option to print the estimated tax on the proposal. Service fees must be entered on the Services tab to calculate.
<b>Group Method</b>	Option to group services/charges on the proposal by Site, Line of Business (LOB) or Material.
<b>Multiple Start Dates</b>	Allows the user to define a unique start date for each service added to the form and is primarily used for broker agreements and not a regular sales proposal.

## Print Est WO Charges

Option to include the (estimated) work order charges on the proposal.

## Services

The Services tab identifies the service(s) and additional charges the proposal includes. Services are entered in one of two ways, copied from a lead or, manually added.

The screenshot displays the 'ADD DOCUMENT - PROPOSAL' interface. The 'Services' tab is selected and highlighted with a red box. A dropdown menu is open, showing options: Commercial, Medical Waste, Residential, Roll Off, and TEST LOB. A red arrow points to the 'Residential' option. Below this, the 'ADD SERVICE' form is shown. The form includes fields for SITE (Example Account 1 (Active) 112 Chieftain St), QTY (1), EQUIPMENT (4 Yard FL), SERVICE CODE (4 Yard Trash Service), FREQUENCY (1x per week), PER UNIT (173.2000), and SERVICE FEES (173.20 month). A map shows the location of the service. The form also includes a 'SERVICE DAYS' section with checkboxes for M, T, W, H, F, S, and Su. A 'SAVE' button is visible at the bottom of the form.

QTY	EQUIPMENT	SERVICE CODE	FREQUENCY	PER UNIT	SERVICE FEES
1	4 Yard FL	4 Yard Trash Service	1x per week	173.2000	173.20 month

### Add Service

1. Click the **green '+'** icon from the Services screen.
2. Select the Line of Business the service is for.
3. Enter a **Quantity** amount for the equipment.
4. Select the **Equipment** the service requires.
5. Select the **Service Code**.
6. Select the **Frequency** the site will be serviced.
7. Enter a rate in the **Per Unit** field. The amount entered here will be multiplied against the value entered in the QTY field to calculate the Service Fees.
8. Optional: if a daily inactivity rental fee applies to the equipment, enter it in the **Daily Rate** field.

### Add Service Charges

Add additional rates in the Service Charges section for anything the customer may call in and request. The account is only charged when the added service is used.

1. Select the **green '+'** icon displayed below the service map.
2. Select the service charge you would like to add.
3. Click within the **Rate** column of the service charge line item to enter a rate for the service.

## Copy Lead

If a lead was previously created for the account, and the service recorded in the lead matches the service proposal, select **Copy Lead** to auto-fill the fields in the Add Service screen.

The screenshot shows the 'ADD DOCUMENT - PROPOSAL' interface. The 'Services' tab is selected, and a 'Copy Lead' button is visible. A red arrow points to this button. Below the main interface is a 'SITE LEAD SERVICE' window showing a table of service details.

LOB	QUANTITY	SERVICE CODE	FREQUENCY	RATE	
Commercial	1	4 Yard Trash Service	1x per week	174.00	Copy Lead
1		4 Yard Trash Service	1x per week		\$ 174.00 per month

1. Select **Copy Lead** from the Services tab of the Add Proposal screen.
2. Review the service(s) displayed in the customer service 'Lead Service' screen and select **Copy Lead link** for the service you would like copied. Upon selection, the 'Add Service From Lead' screen will open.
3. Review the service information copied into the 'Add Service From Lead' screen and edit and/or complete additional fields as needed.
4. Select **Save** when finished.

## Map Service Locations

Select 'Map Service Locations' to display a Satellite or Map view of the sites included in the proposal.

When the map opens, a location pin displays over each site. If needed, use the drag and drop feature to relocate a site's pin to the approximate location the site should be serviced from. For example, if the service container is located on the west side of the parking lot, drag and drop the pin in that location to direct the driver where to go.

The image shows two overlapping screenshots from a software application. The top screenshot is titled 'ADD DOCUMENT - PROPOSAL' and features a navigation bar with tabs: Settings, Services, History, Attachment, Master Agreement, Term Addendums, and Surcharge Rates. Below the navigation bar is a table with columns: SITE ID, START DATE, QTY, SERVICE CODE, FREQUENCY, RATE, and VENDOR RATE. A 'MAP SERVICE LOCATIONS' button is highlighted in yellow, with a red arrow pointing to it. The bottom screenshot is titled 'SITE & SERVICE LOCATIONS' and shows a satellite map of a commercial area. On the left side of this screenshot is a table with columns: MAP ID, NAME, TYPE, and NOTE. The table contains one entry: SL, Caribou Coffee, No Enclosure. The map shows various businesses like Valley Spirits, Croixland Leather Works, and Ace Sushi, with a red pin labeled 'SL' placed on the map. A 'SAVE' button is visible at the bottom of the map interface.

## History

The History tab provides a log of actions performed on a document, ensuring full transparency and accountability. It captures key activities such as:

- Email history
- Each instance the form was viewed
- The date the form was approved
- The signature date an agreement was signed
- The date a Proposal Expiration alert was issued. Alert notifications are issued 90 days from, 60 days from, 30 days from and day of expiration.

## Attachment

Use the Attachments tab to attach and save PDF documents with the proposal. Select 'Display for Proposal' if the attachment should be displayed with the proposal when printed or emailed.

## Estimated vs Actual

The Estimated vs Actual tab displays a service's estimated revenue compared to the actual revenue calculated when service begins. By default, this tab does not display unless enabled in Service Code Setup.

## Field Descriptions

Field	Description
Estimate Type	Displays the selection made in the 'Estimated' field when the service was added in the Services tab.
Est Revenue	Displays the value entered in the 'Revenue' field when the service was added in the Services tab.
Est Orders/Units	Displays the value entered in the 'Units' field when the service was added in the Services tab.
UOM	Displays the UOM (Unit of Measure) selected in the 'UOM' field when the service was added in the Services tab.
Booked	
Billed Qty	
Billed Revenue	

## Enable the Estimated vs Actual Tab

**Pathway:** Setup > Services > Service Code

The Estimated vs Actual tab will only display if the proposal includes at least one service code where *Enable Estimates Tracking* is set to 'Yes'. Otherwise, the tab will be hidden from view. By default, the Enable Estimates Tracking field is set to 'No' in Service Code setup.

## Term Addendums

If Term Addendums apply to a proposal, they can be enabled on the Term Addendums tab.

Addendum availability is managed in **Setup > Document Format > Format** and depends on the Form Type. Additionally, an **optional** pre-authorization process can be configured to ensure approval before sending the proposal to the customer if it includes an addendum.

The screenshot displays the 'EDIT DOCUMENT - PROPOSAL 4090' interface. The top navigation bar includes tabs for 'Attachment', 'Master Agreement', 'Check List', 'Estimated vs Actual', 'Term Addendums' (highlighted with a red box and a red '1' notification), and 'Surcharge Rates'. Below the tabs, the 'ADDENDUM' section is visible, featuring a toggle switch for 'Can cancel if business is sold.' which is currently turned on. A red message at the bottom of the addendum section states: 'This document will require pre-authorization before it can be sent to customer.' At the bottom of the interface, there are three buttons: 'SAVE', 'PRINT', and 'EMAIL'.

## Surcharge Rates

If surcharge rates apply to a service, they can be added from the Surcharge Rates tab.

After selecting the green add icon, click within each field to select the surcharge, set the effective start date, specify the rate, and choose the rate type. Additionally, an **optional** pre-authorization process can be configured to ensure approval before sending the proposal to the customer if it includes surcharge rates that are different from the established rate in setup.

This document will require two pre-authorizations before it can be sent to customer.

SAVE PRINT EMAIL

### Additional Information

- **Surcharge Setup Location:** Surcharge availability is dependent upon the Service Code. To adjust what surcharges are displayed go to *Setup > Services > Service Code*.

## Enable a Pre-Authorization Process (Optional)

To ensure proposals undergo the appropriate level of review, businesses can configure a pre-authorization process before sending proposals to customers. This flexible setup allows for a tailored approval process, requiring either a single pre-authorization from the user's manager or a two-step process that includes oversight from a higher-level manager.

### Approval Logic

**Pathway:** *Setup > System > User*

#### Identification of Approver

The system identifies the approver based on the manager listed in the *Manager* field of the user profile for the individual who drafted the proposal. If a second authorization is required, the system refers to the manager listed in the first approver's user profile.

**RESEND EMAIL INVITATION**

## Setup to Require 1 Authorization

For the system to require a single pre-authorization before the proposal can be sent to the customer, the following must be true:

- In *Setup > Document Formats > Type*, the 'Pre-Authorization' field is set to either "Require one Authorization for all Documents" **OR** "Require one Authorization for Documents with a rate below Max. Discount."

**DOCUMENT TYPE SETUP** + FORM TYPE Form

ID	NAME	FORM TYPE	REASON CODE	IS RENEWAL TYPE	IS TEMP
<div style="border: 1px solid #ccc; padding: 10px; width: fit-content; margin: 0 auto;"> <p><b>ADD DOCUMENT TYPE</b> <span style="float: right;">? X</span></p> <p>NAME <input type="text"/></p> <p>FORM TYPE <input type="text"/></p> <p>REASON CODE <input type="text"/></p> <p>IS RENEWAL TYPE <input type="text"/></p> <p>IS TEMP <input type="text"/></p> <p>PRE-AUTHORIZATION <input type="text"/></p> <p>REVIEWS &amp; APPROVALS <input type="text"/></p> <p>CHECK LIST TYPE <input type="text"/></p> <p>ACTIVE <input type="text"/></p> <p style="text-align: center;"><b>SAVE</b></p> </div>					

*Note: In the 'ADD DOCUMENT TYPE' dialog, the 'PRE-AUTHORIZATION' dropdown is set to 'Not Required'. The 'REVIEWS & APPROVALS' dropdown is set to 'Require one Authorization for all Documents' and 'Require one Authorization for Documents with a rate below Max. Discount'. Red arrows point to these two options.*

## Setup and Logic to Require 2 Authorizations

For the system to require two pre-authorizations before the proposal can be sent to the customer, the following must be true:

- In *Setup > Document Formats > Type*, the 'Pre-Authorization' field is set to "Require two authorizations for Documents with a rate below Medium Weight Target, Addendum Terms, or a Surcharge Rate Override"

**And any two of these are true:**

- The Service Fees rate entered by the user is less than the medium weight rate.
- The proposal includes a Terms Addendum.
- The proposal includes a surcharge rate override where the rate is lower than the default rate.

The screenshot displays the 'DOCUMENT TYPE SETUP' interface. At the top, there is a blue header with a '+' icon and a dropdown menu for 'FORM TYPE' set to 'Form'. Below the header is a table with columns: ID, NAME, FORM TYPE, REASON CODE, IS RENEWAL TYPE, and IS TEMP. A modal window titled 'ADD DOCUMENT TYPE' is open in the center. The modal contains the following fields and options:

- NAME: Text input field
- FORM TYPE: Dropdown menu
- REASON CODE: Dropdown menu
- IS RENEWAL TYPE: Dropdown menu (set to 'No')
- IS TEMP: Dropdown menu (set to 'No')
- PRE-AUTHORIZATION: Dropdown menu (set to 'Not Required')
- REVIEWS & APPROVALS: Dropdown menu (set to 'Not Required')
- CHECK LIST TYPE: Dropdown menu (set to 'Require one Authorization for Documents with a rate below Max. Discount')
- ACTIVE: Dropdown menu (set to 'Require two authorizations for Documents with a rate below Medium Weight Target, Addendum Terms, or a Surcharge Rate override')

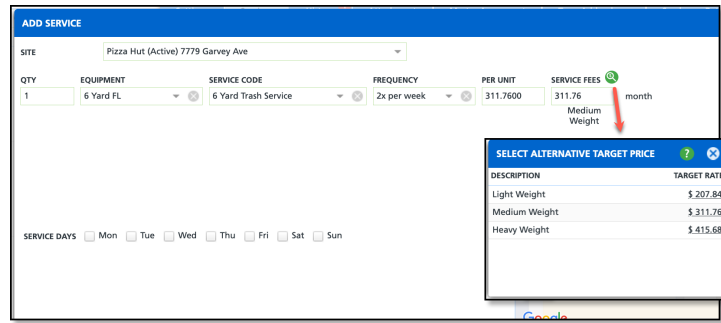

A red arrow points to the 'CHECK LIST TYPE' field. At the bottom of the modal is a 'SAVE' button.

## Illustrated Logic for 2 Authorizations

### Rate Below Medium Weight Target

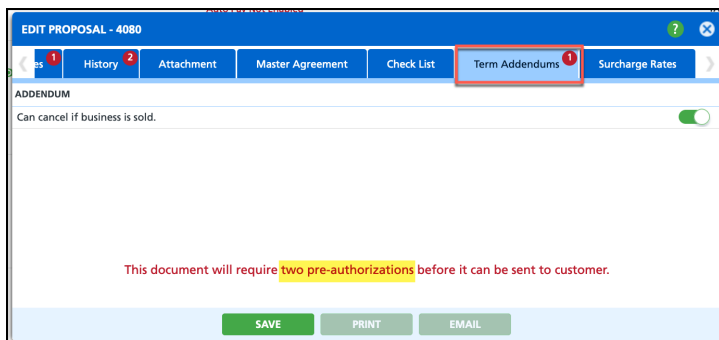

The logic for triggering 'Rate below Medium Weight Target' requires the following setup:

- Cost/Target Pricing must be established for the division.
- The service code must have 'Target Pricing (Weight Class)' selected as the Pricing Model.
- The material type for the service code must match the material type for the line of business.

Once this setup is complete, the Target Price icon will display next to Service Fees after a frequency for the service is selected. Changing this to a lower rate (below medium) will trigger the authorization requirement.

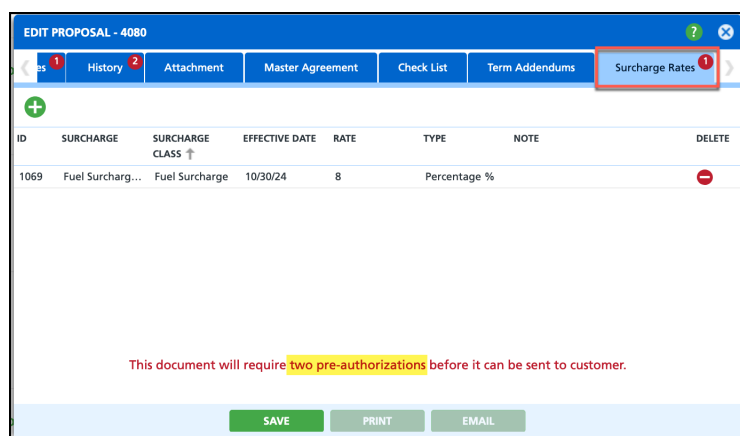

### Term Addendums

The logic for triggering two pre-authorizations with term addendums requires enabling one of the available addendums in the proposal.

### Surcharge Rate Override

The logic for triggering two pre-authorizations with a surcharge rate override requires adding a surcharge and applying a rate that is different than the surcharge's default rate.

# Send Proposal

After the proposal has been created, the option to email it directly to the customer for review and approval is available.

## Send Proposal

Once the customer has opened the proposal, the sales representative will receive a blue notification indicating it has been viewed.

The screenshot shows the 'EDIT PROPOSAL - 3816' interface. A modal window titled 'EMAIL PROPOSAL' is open, allowing the user to configure an email. The modal includes the following fields and options:

- SEND TO (EMAIL):** Customer/Prospectemail@FakeEmail.com
- EMAIL TO CONTACTS:** (Empty dropdown)
- SUBJECT:** Proposal
- FORMS:** (Empty dropdown)
- INCLUDE ATTACHMENT?:**
- CC SALES REP:**
- CC SENDER:**

The email body contains the following text:

Dear AI,  
Thank you for discussing your needs with me so I could offer you a solution that should not only meet your needs, but exceed your expectations. Please review the attached proposal I built for you by [clicking here to review your service proposal](#).  
Please contact me directly if you have any questions or need additional information. I look forward to working together.  
Have a great day!  
Michael Hunt - Sales Manager  
Michael@FakeEmail.com  
PO BOX 12345  
Corpus Christi, TX 78426

At the bottom of the modal is a green **SEND** button. A red arrow points to the **EMAIL** button in the main interface footer.

## Email Proposal

1. Enter the email address of the person the proposal should be sent to in the **Send to (Email)** field if they are not listed as a contact in the "Email To Contacts" drop-down; otherwise, select a pre-existing contact from the drop down.
2. Select an email template from the **Subject** drop down. This will populate the message in the Body section of the email.
3. Select to **Forms** drop down to add a form such as a Cancellation Policy or anything else you would like a customer to have along with the proposal.
4. Review the body of the email message and edit as needed. Click **Send** when the proposal is ready to be sent.

## Proposal Example

The following is an example of a printed or emailed proposal. Proposals will vary dependent on your template setup.

QA Waste Services - CORPUS  
Corpus Christi TX

## Quote

Thank you for your interest in our services! We are eager to serve our local businesses and provide excellent customer service.

### Service Location:

#### Example Site 1

Service Location Name

2222 Navu Cir

Service Address Line 1

Service Address Line 2

Corpus Christi

TX

78411

Service Address City

ST

Zip

Based on the information you provided we recommend the following service option/s for the above service location:

Qty	Service	Frequency	Monthly Rate
1	10 Yard Open Top Service Roll Off Delivery	On Call \$ 0.00 each	\$ 85.00 per month

Please let us know if you have any questions,  
we look forward to hearing from you!

Thank you for your consideration.

Email:

### Customer Option: Send Message

Upon receiving an electronic version of the proposal, customers can choose to send a message to the assigned sales representative. Once a message is sent, the sales rep will be notified with a blue notification containing the message. The message will also display in their Recent Activities and on the Customer Service screen. Sales reps are not able to message the customer back using the same process and must use an alternative means of communication.
