

Setup (Operations) - New Work Type Field (14540) [Enhancement]

Last Modified on 01/25/2023 4:14 pm EST

A new setup option, 'Enable Driver to Set In Progress' has been added to the Work Type Setup editor. When enabled, a drive can start or set the work order status to In Progress from their NavuNav (Android) application (v1.0.3 or later).

- Enabled = Yes
- Not Enabled = No

The screenshot displays the 'WORK TYPE SETUP' interface. At the top, there is a '+ LOB' dropdown menu set to 'All'. Below this is a table with columns: ID, NAME, LOB, ACTION CATEGORY, INVENTORY MOVE TYPE, and MANIFEST NOTIFICATION TEMPLATE. The table lists several work types, with 'RO_DELIVER' highlighted in green. A red arrow points from the 'RO_DELIVER' row in the table to the 'UPDATE WORK TYPE' modal window.

The 'UPDATE WORK TYPE' modal is open for 'RO_DELIVER'. It contains the following fields and values:

Field	Value
ID	RO_DELIVER
NAME	RO Delivery
LOB	Roll Off
INVENTORY MOVE TYPE	Delivery
ACTION CATEGORY	Delivery
ORDER BASELINE SECONDS	
DEFAULT SECONDS PER UNIT	0
MANIFEST NOTIFICATION TEMPLATE	
CREATE ONE SERVICE RECORD PER QUANTITY	Yes
ENABLE DISPOSAL OR MATERIAL ENTRY	None
ENABLE CONSOLIDATION BATCH LINK	No
ENABLE DRIVER ENTERED LABEL WEIGHTS	No
ENABLE DRIVER PHOTO PROMPT	No
PRODUCTIVITY UNITS	1.00
ALLOW ACCOUNT PORTAL ENTRY	No
ENABLE DRIVER TO SET IN PROGRESS	No

The 'ENABLE DRIVER TO SET IN PROGRESS' field is highlighted with a red box. A 'Saved.' message is visible at the bottom right of the modal.

Pathway: Setup > Operations > Work Type
