

Database - Division Filter added to Drop Down (Enhancement) (13913)

Last Modified on 02/02/2023 12:45 am EST

A new 'Division' filtering option has been added to the Notification History screen. When a division is selected, only notifications for that division will display. Select 'All' to clear the filter and display all divisions again.

The screenshot shows the 'Notification History' interface. At the top, there are two tabs: 'Notification History' (selected) and 'Email Block List'. Below the tabs is a filter bar with the following fields: 'DIVISION' (a dropdown menu with 'All' selected and highlighted by a red box), 'DATE' (a 'Custom Range' dropdown), 'START DATE' (06/06/202), 'END DATE' (07/12/202), 'NOTIFICATION TEMPLATE TYPE' (All), 'DELIVERY STATUS' (All), 'SENT BY' (All), 'TYPE' (All), and 'TO EMAIL' (empty). A green 'LOAD' button is on the right. Below the filter bar is a table with columns: 'SENT ON', 'FROM', 'TO', 'DELIVERY STATUS', and 'DIVISION'. The table contains several rows of notification data, all with a 'Delivered' status.

SENT ON	FROM	TO	DELIVERY STATUS	DIVISION
07/11/22 12:38 pm 69340			Delivered
