

# Addition of new alert notification type (13389) [Enhancement]

Last Modified on 02/02/2023 12:42 am EST

Service in Progress notification alerts customer when driver is in route to job. The driver initiates the notification on tablet directly to customer.

(when driver is in progress can update from ipad)

The screenshot shows a software setup interface with a sidebar menu on the left and a main table on the right. The sidebar menu includes categories like 'SETUP', 'DATABASE', 'Accounting', 'Customer', 'Documents', 'Operations', 'Products', 'Report Formats', 'Sales', 'Services', and 'System'. Under 'Operations', there is a sub-menu 'Work Type' which is highlighted in red. The main table contains various notification types and their associated actions.
