

Equipment Type (Services Setup)- Capacity Planning Volume UOM not saving (13889)

Last Modified on 01/23/2023 3:07 pm EST

Previously, when a user tried to update the 'Capacity Planning Volume UOM' field in the Equipment Type setup editor, an error triggered and the field did not save. This has been fixed.

The screenshot displays the 'UPDATE EQUIPMENT TYPE' dialog box overlaid on a table of equipment types. The dialog box contains the following fields:

- EQUIPMENT ID: 2Y
- NAME: 2 Yard
- ABBREVIATION: (empty)
- LOB: Front End Load
- VOLUME: 2.00
- VOLUME UOM: Cubicyard
- CAPACITY PLANNING VOLUME: (empty)
- CAPACITY PLANNING VOLUME UOM: (dropdown menu, highlighted in yellow)
- EQUIPMENT CLASS: FL
- DISPLAY ON SCAN MANIFEST: No
- MAX WEIGHT: (empty)
- TARE WEIGHT: (empty)
- TARE WEIGHT UOM: (empty)
- IS SERIALIZED: No
- EXTERNAL ID: (empty)
- SERVICE SECONDS PER UNIT: (empty)
- ENABLE AS GROUP LABEL: No

The background table lists various equipment types, with the '2Y' row highlighted in green. The 'Services' menu is open, showing 'Equipment Type' selected.

Pathway: Set up > Service > Equipment Type
