

Portal - Last Login Time Stamp Recording Incorrect Time (13853)

Last Modified on 01/23/2023 3:07 pm EST

A fix has been made to the Login History tab in Edit Portal User for account contacts. Previously, when viewing the contact's 'Login Time' from the Login History tab, the time displayed did not match the time displayed in the Details tab or anywhere else the login timestamp displays. This has been fixed so all timestamps display the same local time of the account.
