

Set Up - System Options Currency Field Added (14120)

Last Modified on 01/23/2023 3:07 pm EST

A Currency field has been added to the Systems tab in the System Options tool. Making a selection here will change how currency is displayed throughout the application for all users.

The screenshot displays the 'System Options' configuration page. The interface is organized into two columns of settings. The left column includes fields for 'ENVIRONMENT', 'DIVISION LABEL', 'EXTERNAL ID LABEL', 'SITE CLASS LABEL', 'AUTO REFRESH TIME', 'FAST AUTO REFRESH TIME', 'TIME ZONE', 'CURRENCY', and 'LOCALE'. The right column includes 'LOGIN LOGO', 'LOGIN LOGO URL', 'APPLICATION LOGO', 'APPLICATION LOGO URL', 'ATTACHMENT EMAIL', and 'EXTERNAL NOTES LIMIT'. The 'CURRENCY' dropdown menu is highlighted with a red border and is currently open, showing a list of options: 'US Dollar', 'Australian Dollar', 'British Pound Sterling', 'Canadian Dollar', 'Euro', 'New Zealand Dollar', and 'US Dollar'. The 'US Dollar' option is selected and highlighted in green.

System	Sales	Integration	Account	Operations	Account Portal	Broker	Online Order
