

# Notification History - Text Service Notifications Were Not Displaying (14218)

Last Modified on 01/26/2023 4:43 pm EST

Previously, an issue prevented text service notifications from displaying in the Notification History screen when the Notification Template Type (filter) was set to 'Service Notification / Reminder'. This has been resolved.

The screenshot shows the 'Notification History' interface. At the top, there are two tabs: 'Notification History' (selected) and 'Email Block List'. Below the tabs are several filter fields: 'DIVISION' (All), 'DATE' (Within Last 7 Days), 'NOTIFICATION TEMPLATE TYPE' (Service Notification / Reminder), 'DELIVERY STATUS' (All), 'SENT BY' (All), 'TYPE' (SMS), and 'TO EMAIL'. A green 'LOAD' button is to the right of the filters. Below the filters is a search bar. The main area contains a table with the following data:

SENT ON ↓	FROM	TO	DELIVERY STATUS	DIVISION	SUBJECT	MESSAGE
10/17/22 11:14 am ID: 69500	SMS	(555) 555-1234 Example Recipient_IN (7370)	Queued	Orlando	Service Completed	You service was completed! Awesome!
