# **Rate Update Batch**

Last Modified on 07/21/2025 12:10 pm PDT

#### Pathway: Sales > Rate Update Batch

The *Rate Update Batches* tool is used to mass update rates for sites by either a percentage or an entered value amount. This tool offers two options to create a batch rates are updated in: *Site Service Batch* or *Site Service Charge Batch*. **Site Service Batch** is used to create a batch for sites receiving recurring services. **Site Service Charge Batch** is used to create a batch for sites receiving one-time charges. After a batch has been created it will display on the Rate Update Batches screen with an 'Open' status. Color coding is used to identify batch status using the following colors:

- Open = White
- Green = Posted
- Red = Voided

### Permissions

The following permissions are required to use the Rate Update Batch screen and its features:

Permission ID	Permission Name
106	Rate Update Batches
107	Create Rate Update Batch
108	Post Rate Update Batch

#### **Field Descriptions**

Modifications	Descriptions
Grid View	<ul> <li>Defaults to Standard view. Other option included: Extended and Book of Business.</li> <li>Standard: Displays basic details related to the rate change.</li> <li>Extended: Includes service-level information to show which services the rate change applies to.</li> <li>Book of Business: Provides expanded account-level information in addition to rate change and service details.</li> </ul>
Change Type	Increase or decrease rates by percentage or amount when updating in bulk for selected sites.
Amount	Indicates the amount to adjust rates by. If rates are being decreased, place a minus sign in front of the numeric value.

Modifications	Descriptions
Apply	Applies the entered amount to the selected sites as of the effective date.
Export	Option to export what is currently displayed to Excel in CSV format where rates can be externally updated and imported back in.
Import	Option to import a CSV document back into Rate Update Batch. After a batch has been exported and rates updated in Excel, use the Import option to import the rate changes back into Navusoft.
Post	Posts the new rates to the accounts and sites and updates the batch status to Posted. Once a batch is in a posted status it can not be updated.
Void	Select Void to void the batch. Rates will not be updated for voided batches.

### **Review Contract Expiration Associated to Site**

To review a site's contract expiration, scroll to the right in the Rate Update Batch Details screen until the Contract Expiration column is visible. The expiration date appears as a clickable link that opens the contract in a popup window when selected.

## **Create a Site Service Batch**

*Site Service Batch* is used to create a batch of sites receiving recurring services. After a batch is created, rates can be updated by either a percentage or an entered value amount.

- 1. Click on the + icon in the upper left corner of the screen.
- 2. Select **Site Service Batch** to open the 'Add Site Service Rate Update Batch' screen.
- 3. Click "Add Filter" to apply the new rates to a defined group of accounts.

### **Create a Site Service Charge Batch**

*Site Service Charge Batch* is used to create a batch of sites receiving one time charges; this includes on call orders and manual charges. After a batch is created, rates are updated by either a percentage or an entered value amount.

- 1. Click on the + icon in the upper left corner.
- 2. Select **Site Service Charge Batch** to open the 'Add Site Service Charge Rate Update Batch' screen.
- 3. Click "Add Filter" to apply the new rates to a defined group of accounts.

### Apply a Rate Change to Multiple Accounts

The following process applies to both 'Site Service Charge Rate Update Batch' and 'Site Service Rate Update Batch'

screens. Using the 'Change Type' and 'Amount' fields at the top of the screen, enter the amount for the new rate, and it will be applied to all the selected sites.

SITE SEI	RVICE RA	TE UP	PDATE BATCH: 1091									2 8

4335	58001	888 CI	HINESE RESTAURANT		PEARLAND	21387	6 Yard Trash Se	ervice	\$ 262.47			
EXP	PORT		IMPORT							POST		VOID

The process outlined below assumes the batch has already been created and is in an 'Open' status.

- 1. Double click on the open batch from the Rate Update Batch screen to open the editor.
- 2. Select the Change Type to indicate how you would like the system to update the rate. Options include:
  - Percentage (%): Enter the percentage by which the site rates should increase or decrease.
  - Amount: Enter a flat dollar amount to increase or decrease the site rates.
- 3. Enter the Amount of the change.
  - a. Increase Rate: Enter a positive value in the Amount field.
  - b. Decrease Rate: Enter a negative value in the Amount field.
- 4. Select the checkbox for each site the rate change applies to.
- 5. Enter an Effective Date the new rate applies.
- 6. Select Apply when finished.
- 7. Select **Post** and the new rates will be posted to the sites they apply.

### **Apply a Rate Change to Individual Accounts**

The following process applies to both 'Site Service Charge Rate Update Batch' and 'Site Service Rate Update Batch' screens. Individually apply a rate change to accounts by selecting within the New Rate field for a site and entering a new rate.

SITE SERVICE	SITE SERVICE RATE UPDATE BATCH: 1087											
Total Count: 6	Total Count: 6 (6 Visible)											
<b>GRID VIEW</b> Standard	GRID VIEW         CHANGE TYPE         AMOUNT         EFFECTIVE DATE           Standard											
SITE ID	SITE NAME	CITY	SERVICE ID	SERVICE CODE	CURRENT RATE	NEW RATE	VARIANCE	CURRENT WO MINIMUM				
49032001	San Marino Cafe & Marketplace	San Marino	38684	3 Yard Trash Service	\$ 100.00	\$ 105.00	\$ 5.00					
49032001	San Marino Cafe & Marketplace	San Marino	38140	2 Yard Trash Service	\$ 100.00							
49055001	Mother Wolf	Los Angeles	38230	3 Yard Trash Service	\$ 0.00							
49055001	Mother Wolf	Los Angeles	38224	4 Yard Trash Service	\$ 346.40							
49074001	Toca Madera West Hollywood	Los Angeles	38283	Front Load Rental Fee	\$ 100.00							
49074001	Toca Madera West Hollywood	Los Angeles	38282	3 Yard Trash Service	\$ 225.00							
EXPORT	IMPORT											

The process outlined below assumes the batch has already been created and is in an 'Open' status. **To retain the current rate, the New Rate field must be left blank or set to null.** Setting it to zero will effectively change the rate to zero.

- 1. Double click on the open batch from the Rate Update Batch screen to open the editor.
- 2. Enter the **Effective Date** the rate change takes effect.
- 3. Click within the 'New Rate' column for a site and enter the new rate. Click away when finished to apply the change. This will also trigger the calculation in the Variance column.
- 4. Continue until all new rates have been entered.
- 5. Select **Post** and the new rate(s) will be posted to the sites they apply.

### **Reverse a Batch**

If a batch is in Posted status, the option to reverse it is available. However, during the reversal process, the system will not reverse a site's rate update if any of the following conditions are met:

- The site did not have a new rate applied. This is indicated with a gray background.
- The service change work order was marked completed or posted. This is indicated with an orange background.
- The service has already been billed. This is indicated with an orange background.
- The service has been edited since the batch was created. This is indicated with a red background.

EXF	PORT								REVERSE

# **Export to Excel & Import Changes**

Export a Rate Update Batch to Excel to externally apply rate changes. When finished, import the CSV file back into the Rate Update Batch for the corresponding batch. The system will then match the "New Rate" column in Navusoft with the "New Rate" column in the CSV file.

SITE SERVICE R	SITE SERVICE RATE UPDATE BATCH: 1087												
Total Count: 6 (6	Total Count: 6 (6 Visible)												
GRID VIEW	CHANGE TYPE AMOUNT		EFFECTI	/F DATE									
Standard	▼ % ▼ 2.00	APPLY	07/01/2	Search	Q, (8)	ð							
SITE ID	SITE NAME	CITY	SERVICE ID	SERVICE CODE	CURRENT RATE	NEW RATE VARIANCE							
49032001	San Marino Cafe & Marketplace	San Marino	38684	3 Yard Trash Service	\$ 100.00	\$ 105.00 \$ 5.00							
49032001	San Marino Cafe & Marketplace	San Marino	38140	2 Yard Trash Service	\$ 100.00								
49055001	Cascade Health	Los Angeles	38230	3 Yard Trash Service	\$ 0.00								
49055001	Cascade Health	Los Angeles	38224	4 Yard Trash Service	\$ 346.40

49074001	Toca Madera West Hollywood	Los Angeles	38282	3 Yard Trash Service	\$ 225.00								
EXPORT	IMPORT												

Export

When Export is selected, all sites displayed on the screen are exported in CSV format to Excel based on the selected Grid View. Users can then use Excel's features to update rates before importing the file back into Navusoft.

Values entered in the New Rate field will override a previously entered new rate for the open batch.

# **Notify Customers of Future Rate Increase**

#### Pathway: Accounting > Billing

In the Results section of the **Billing screen**, the **Future Rate Increase** count displays the number of accounts scheduled for a rate change in the selected batch. Select the numeric value to view a list of those accounts. To communicate the rate increase to your customers, enter a message in the **Message** field of the *Future Rate Increase Invoices* popup. This message will appear on the affected invoices.
