

# Notification History and Block List

Last Modified on 05/24/2024 10:13 am EDT

[Pathway: Database > Notification History and Block List](#)

The **Notification History** tool contains a log of all SMS and Email notification types users have sent from the Navusoft system. Notifications do not immediately display upon first opening the tool. To view a history of notifications, make selections from the filtering options displayed along the top of the screen and then select Load.
