

# GL Transaction Processing

Last Modified on 09/25/2024 3:12 pm EDT

**Pathway:** *Accounting > GL Transaction Processing*

GL Transaction Processing consists of four screens that allow you to review all transactions posted in Navusoft by GL Account, and create new GL batches to post to your general ledger. Transactions displayed on the screen are organized by A.R. period, and Type.

GL TRANSACTION PROCESSING							ACCOUNTING > GL TRANSACTION PROCESSING	
AR PERIOD: Sep 2022		LOAD						
Pending		In Progress		Posted		Summary		
TYPE: All	Setup Errors (2)						Search

## Permissions

The following permissions are required to use this tool:

Permission ID	Name	Description
114	GL Transaction Processing	Users can view the GL Transaction Processing tool but cannot process a batch.
115	Create GL Transaction Batch	Users can view and use the GL Transaction Processing tool.
116	Post GL Transaction Batch	Users can post GL batches.

## Field Descriptions

The following fields display in the Pending, In Progress, Posted and Summary tabs of GL Transaction Processing.

Field	Description
<b>Pending</b>	
Type	Indicates the batch transaction type.
Reference #	Displays the batch ID.
AR Period	The period in time when the transaction took place.

Field	Description
Date	The date the batch was created.
Count	The total count of GL Accounts the batch includes.
Errors & Fix Errors	Displays a count of GL Account setup errors. Select Fix Errors to resolve the errors if setup is correct and the errors are expected.
Posted By	Displays the name of the user who posted the batch.
<b>In Progress</b>	
GL Batch ID	References the batch number assigned when the GL batch was created.
AR Period	Displays the accounts receivable period the GL batch belongs to.
Created By	Displays the name of the user who created the GL batch.
Note	Displays the note added to the GL batch when it was created.
<b>Posted</b>	
GL Batch ID	References the batch number assigned when the GL batch was created.
AR Period	Displays the accounts receivable period the GL batch belongs to.
Created By	Displays the name of the user who created the GL batch.
Posted By	Displays the name of the user the GL batch was posted by.
Note	Displays the note added to the batch when the batch was created.
<b>Summary</b>	
GL Account	References the GL account to which the transactions apply.
Pending Count	The total pending transaction count not in a GL batch.
Pending Debit	Displays a total debit amount for all transactions not in a GL batch.
Pending Credit	Displays a total credit amount for all transactions not in a GL batch.
In Progress Count	The total count of transactions that are In Progress for a GL batch.
In Progress Debit	Displays a total debit amount for a GL batch that is In Progress.
In Progress Credit	Displays a total credit amount for a GL batch that is In Progress.
Posted Count	The total count of transactions that were posted in a GL batch.
Posted Debit	Displays the total debit amount for a posted GL batch.

Field	Description
Posted Credit	Displays the total credit amount for a posted GL batch.
