Last Modified on 11/05/2024 12:57 pm PST

Pathway: [Account](#) > [Add Account](#)

Before adding a new account, consider searching for the account to verify one hasn't already been created. Otherwise, upon selecting Create Account the system will check for duplicates.

In the Add Account editor, accounts can be added either as an Active account or a Prospect account. This illustrates the process of creating a Prospect account to keep in the sales cycle for future follow-up. Review each section and minimally complete all required fields highlighted in red. Additional field information including logic and setup can be reviewed here: [Create Account: Screen Field Descriptions](#).
