

Account Level Notes

Last Modified on 02/22/2024 4:14 pm EST

Pathway: [Accounts](#) > [Search - Account](#)

Account level notes allow users to apply notes that are accessible across all sites associated with the account. These notes serve as a centralized repository of information relevant to the entire account, ensuring seamless communication and coordination across multiple sites.

Permissions

Review the following permissions that are necessary for the creation and editing of notes:

Permission ID	Permission Name
14	Add Note
15	Edit Note For Self
16	Delete Note For Self
17	Edit Note For Others
18	Delete Note For Others
19	Set Note Date And Time When Adding Note
20	Edit Note Date And Time For Self
21	Edit Date Note and Time For Others

Warning on Open

Displays as a pop-up warning anytime the account is accessed. Warnings entered here will display when any of the site locations linked to the account are accessed.

The screenshot displays the 'EDIT ACCOUNT' interface with a 'Warning on Open' pop-up. The main interface includes sections for 'Account' and 'Settings', with 'Billing' and 'AP' sub-sections. The 'Warning on Open' field contains the text 'No check payments.' A 'SAVE' button is visible at the bottom. The pop-up window shows a 'WARNING' message: 'Account: No check payments.' with an 'OK' button. The background interface also shows a calendar view for February 2024 and a table of active services.

Add a 'Warning On Open' Note

1. Navigate to the account using your preferred search method.
2. Right-click under the account's address (left side of the Customer Service screen) and select **Edit** to open the 'Edit Account' editor.
3. Enter a warning note into the **Warning On Open** text box field.
4. Select **Save** when finished.

To **remove** a warning note that no longer applies, follow steps 1-3 outlined above and delete the text from the **Warning On Open** field. Select **Save** when done.

One Time Note

Enter a one-time note at the **account level** and the note will display on the selected day in the calendar for each site.

The screenshot illustrates the process of adding a one-time note to a calendar. It shows the account summary, a calendar view for February 2024, and the 'ADD NOTE' pop-up window. The note text is 'Bin was overflowing. Contact for larger size.' and the 'CREATED ON' date is 01/29/2024 3:00 pm. The note is then shown as a 'Service Note' on the calendar for Jan 29.

Add a One-time Note

1. Navigate to the account using your preferred search method.
2. Right-click on the date in the calendar the note applies and select **Add Note**. The 'Edit Note' pop-up will display to add a note.
3. Verify the date in the **Created On** field is the date you intend for the note to display on. Use the calendar icon to edit the date if needed.
4. Select the **Note Type**. Account-level notes must use a designated 'Account' Note Type.
 - o Note Types are established and are available to reference in *Setup > Customer > Note Type*.
 - Note Types are created for either account-level (displays across all sites), or site-level (displays for a specific site) use.
5. Enter the body of the note in the **Note** field.
6. Select **Save** when finished. The note will display on the calendar for the date indicated in the Created On field.

To **remove** a note:

1. Select the note from the calendar.
2. Select **Delete** and the note will be deleted from the account and all sites.

Service Notes

Add a service note to an active service, and it will display on work orders and in the NavuNav driver application based on the dates entered.

The screenshot displays the NavuNav application interface for an active service. At the top, account details for '48991 The Pour' and '48991001 The Pour' are shown. Below this is a table of service details including Division (HOUSTON), Account Mgr (Aliena Somers), Class (ROLL OFF-PERM), and Bill Group (Invoice Test Only). A table shows current and future bill amounts. A 'HIGHLIGHTS' section indicates 'Site is not geocoded'. The 'ACTIVE SERVICES (1)' section shows a '10 Yard Open Top Service' with a 'TOTAL RECURRING \$ 0.00'. A calendar view for November 2023 is visible, with a red arrow pointing to a green dot icon on the Saturday, Nov 4. A 'SERVICE ADDITIONAL FIELDS' editor is open, showing fields for Reason Code (ADD-New Business), PO Number, Blanket PO, and Destination/Origin. A 'SERVICE NOTES' section at the bottom of the editor is highlighted with a red box, containing a table with one note: 'Call when you arrive. (555) 555-5555' with a start date of 11/08/2023 and an end date of 11/09/2023. A red minus icon is next to the note, and 'SAVE' and 'CANCEL' buttons are at the bottom.

Add a Service Note:

1. From the Active Services section of an account, select the **green dot icon** associated to the active service to open the "Service Additional Fields" editor.
2. Select the plus icon from the **Service Notes** section of the editor. By default, the current date will populate the **Start Date** field.
3. Enter an **End Date** if the note should be restricted to a specific time period. Otherwise, leave the End Date field blank and the service note will continuously display on work orders and in the NavuNav driver application.
4. Enter the **Note** that you would like displayed.
5. Select **Save** when finished.

Delete/End a Service Note:

✓ If a historical record of a service note must be kept, consider adding an end date instead of deleting the note. This will ensure the visibility of the service note on the relevant work orders within the designated start and end date timeframe, while preventing it from being added to any future work orders.

1. From the Active Service section of an account, select the **green dot icon** for the active service you would like to end/remove the note from. This will open the "Service Additional Fields" editor.
 2. Select the "Delete Site Service Note" icon that is displayed to the right of the note. This will trigger a Confirmation popup.
 3. Select "Yes" to confirm the cancel and the service note will be removed from the active service and all work orders it was previously applied to.
