Operations - Disposal Location Target Usage (14349,14350) [Enhancement]

A new feature, 'Target Usage' has been added to the Disposal / Ship Location screen to create a utilization target for a disposal location that can then be tracked in the 'Disposal Location Usage' tool (Operations > Disposal Location Usage).

DISPOSAL / SHIP LOCATION SETUP SETUP > OPERATIONS > DISPOSAL / SHIP LOCATION

Add a Usage Target:

Pathway: Set Up > Operations > Disposal / Ship Location

- 1. Select a Disposal Location.
- 2. Select the Target Usage tab.
- 3. Click the green '+' to open the 'Add Usage Target' tool.
- 4. Enter information for Effective Date, Material Type (optional), Target Type, Time Period, and Target Value.
- 5. Click Save to apply information to the Disposal Location.

Disposal Location Usage - Targets And Usage History

After Target Usage has been established, use the *Disposal Location Usage* screen to track and monitor current and historical usage for a location.

The following displays for each disposal location:

- Activity to Date: Count and Total of Disposal Records entered for the location
- Pending Activity: Count of stops and estimated volume for future routes or work orders with a default destination assigned
- Target: Displays current target and utilization amount or percentage for the location
- Unassigned Loads: Future stops or routes that do not have a default destination assigned.
