

Disposal Activity - Targets

Last Modified on 08/22/2024 4:15 pm EDT

Pathway: [Operations](#) > [Disposal Activity](#)

The *Disposal Activity* tool tracks progress made toward a disposal location's predefined target usage goal. Progress towards target usage is calculated when a Disposal / Ship record is attached to a service record and the service record marked 'Service Completed'.

Prerequisites

Review the following prerequisites to successfully use the Disposal Activity tool.

Permissions

The following permissions are required:

Permission ID	Permission Name	Description
441	Disposal Activity	Grants access to view the Disposal Activity tool and make modifications.
24	Setup\Operations	Grants access to Disposal / Ship Location setup in Setup > Operations

Setup

Setup > Operations > Facility > Target Usage (Tab).

Create one to multiple unique Target Usage records for a disposal location in the 'Target Usage' tab of the Facility Setup screen. Disposal Locations that do not include a target usage record will continue to display on the Disposal Activity grid with a 'Add Target' hyperlink option. However, only one target usage record can be created per disposal location if added from the Disposal Activity screen.

Screen Field Descriptions

Field	Description
Filter Fields	
Division	Limits to only display target usage for disposal locations of the select Division(s).
Fields	
Disposal Location	Displays the name of the disposal location. Material Type displays under the name only if a material type is specified.
Activity to Date	Displays a summary of the activity to date towards the target usage goal. Includes only Service Records marked as 'Service Complete' where a <i>Disposal/Ship</i> record exists.
Pending Activity	Displays the summary of pending disposals for the location determined by scheduled services and Work Orders.
Target	Displays target usage details for the disposal location including current progress and a count down of days remaining.
Unassigned Loads	Displays a list of Route and Work Order loads that have not been assigned to a disposal location.

Add Target

The Disposal Activity tool includes the option to add a Target Usage record by selection of an on-screen hyperlink. However, only one record can be created if this option is used. Additional target usage records and edits to existing records must be done in *Setup > Operations > Facility > Target Usage (tab)*.

The screenshot displays the 'DISPOSAL ACTIVITY' application. At the top, there are tabs for 'Activity' and 'Targets'. Below this is a 'DIVISION' dropdown menu set to 'CORPUS, DAYTON, HILLSBORO, HOUSTON, QAWASTE'. A search bar is located on the right. The main area shows a table of disposal locations with columns for 'ACTIVITY' and 'TARGET'. An 'ADD DISPOSAL ACTIVITY TARGET' modal window is open, showing a form for 'CHAMBERS COUNTY LF-CUST PD'. The form includes fields for 'EFFECTIVE DATE', 'MATERIAL TYPE', 'TARGET TYPE', 'TIME PERIOD', and 'TARGET VALUE', along with a 'SAVE' button. A red arrow points from the 'Click to add target' link in the table to the modal window.

Add Usage Target

1. Select the 'Click to add Target' hyperlink for the disposal location to display the 'Add Usage Target' editor.
2. Enter an **Effective Date** to indicate when target usage tracking will start.
3. *Optional.* Select a **Material Type** from the drop down. Only Disposal/Ship records matching the selected Material Type will be included in target usage calculations. Leave blank if the Target Usage is not restricted to a specific material type.
4. Select a **Target Type** from the drop down. Options include:
 - o Loads
 - o Weight or Volume
 - o Cost
5. Select a **Time Period** to establish a measurable time frame for the target usage goal. This will also calculate the 'Days Remaining' amount that displays under the Target column for a disposal location.
6. Enter a **Target Value** to establish the measurable goal for the selected Target Type.

Unassigned Loads

Route and work order records that do not have a disposal location assigned will populate in the 'Unassigned Loads' list. Select the route or work order to open the 'Edit Route Record' editor and assign a disposal location. Upon save, the route or work order is removed from the Unassigned Loads list.
