

Service Region Setup

Last Modified on 06/29/2026 11:34 am PDT

Pathway: Setup > Services > Service Region

Service Regions are smaller geographic areas that make up a division and are assigned at the site-level. Service Regions provide flexibility in auto-assigning surcharges to sites and assist in areas of operations, accounting, billing and reporting. Use the Mapping feature to create a perimeter for a service region. When a new site is added with an address that falls within this perimeter, it will automatically be associated with the service region.

SERVICE REGION SETUP							
ID ↑	NAME	DIVISION	REQUIRE SURCHARGE GROUP	DEFAULT SURCHARGE GROUP	GL SEGMENT	DEFAULT BUNDLE ORDER SALES REP	PARENT SERVICE REGION
1001	WOODCREEK	DAYTON	Yes	Fuel Surcharge - Residential	SVCD1001	House Account - House Account (Sales)

Permissions

The following permission is required to add and edit in the Service Region Setup screen:

Permission ID	Permission Name
26	Setup / Services

Field Descriptions

Fields	Descriptions
ID <i>Required</i>	The 10 character ID number specific to the service region.
Name <i>Required</i>	the name of the Service Region.
Division <i>Required</i>	The Division a service region is assigned to. The map icon next to the division opens an interactive map, enabling you to draw a perimeter around the service region's geographic area. When creating a site, if the address is within the service region, it's automatically assigned; otherwise, users will need to manually select the appropriate service region.
Require Surcharge Group <i>Required</i>	Specifies whether a Surcharge Group must be assigned to the account or site upon creation.
Default Surcharge Group	Drop down field to assign a default surcharge group if one applies.

GL Segment	Option to assign a GL Segment to track revenue from the specific service region in <i>Accounting > GL Transaction Processing</i> .
Default Bundle Order Sales Rep	When utilizing online orders, a selection here will auto-assign a default sales representative.
Parent Service Region	The Parent Service Region if the Service Region being created is subordinate (child) to another.
Neighborhood	
Require Tax Group	If enabled, a Tax Group assignment is required for sites belonging to this Service Region.
Allow Portal Self Registration	
Active	Controls if the Service Region is active and available to be assigned to a site. <ul style="list-style-type: none"> • 'Yes' = Active. • 'No' = Inactive.

Add a Service Region

Review the setup process outlined here for adding a service region. Only the required fields highlighted in red are necessary to establish a service region; however, additional fields may be completed to meet your company's specific requirements.

1. Click the green '+' at the top of the screen to open the Add Service Region popup.
2. Fill out all *Required Fields*.
 - o Enter an **ID** for the service region.
 - o Enter a **Name** for the service region.
 - o Select the **Division** the service region is assigned.
 - o Choose whether a **surcharge group** is required when creating a site within the service region.
3. Verify the **Active** status is set to "Yes" to enable it for use.
4. Complete additional fields based on your company's setup requirements.
5. Click **Save** when finished.

Map a Service Region

Click the map icon for a division to open an interactive map, and use the available tools to draw a perimeter around a specific service region within the division. By default, sites are displayed but can be hidden by selecting 'Hide Sites.' Once a perimeter is set, any new site added within this area will automatically be assigned to the service region.
