Map Features	
Pins	Pins are used to mark each location the dashboards include. Pin clusters are used in areas that have a large amount of locations to map. Zoom in on the area to reduce the grouping and view pins for each location.
Zoom	Use the + and - options on the left side of the map to zoom in and out. Otherwise, the dial on your computer mouse can be used.
View Location	Click on a pin to view the information for the location. Select the account number to open the account.

Pipeline Summary - Upper Grid

Sales data for Pipeline Summary is pulled from the *Sales Pipeline Leads* and *Sales Pipeline Opportunities* dashboards. A hyperlink to each dashboard is provided by selecting the values associated to the pipeline. Information displayed here can be used to drill down on the various sales areas and help forecast sales goals.
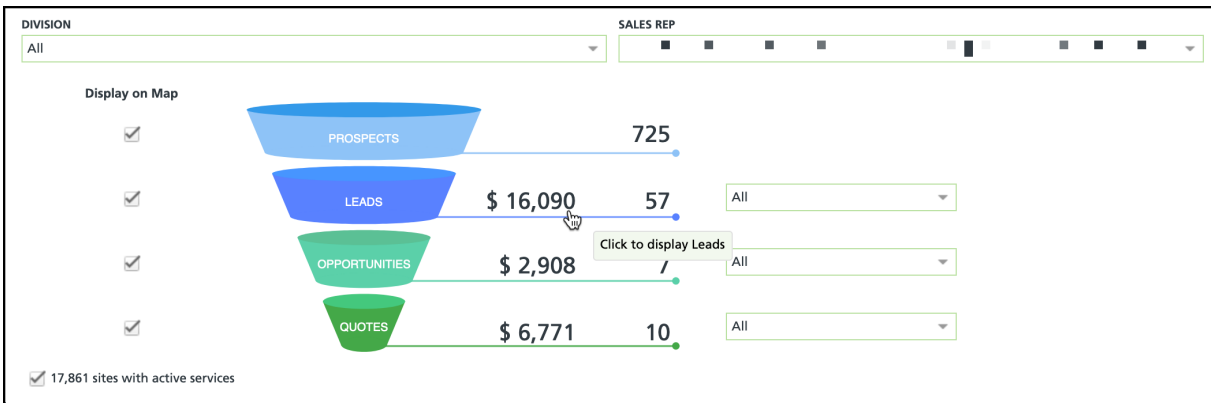

Map - Lower Grid

The Sales Pipeline Summary map displays the locations that were included in the dashboard counts. This map uses pins and pin clusters to identify the location of the prospective site. A 'pin cluster' is used to mark areas containing a higher volume of locations.
