

# SMS Verification - Timestamp Displays After Sending to Contact (14923)

Last Modified on 03/13/2023 1:01 pm EDT

A timestamp has been added to the Contacts screen and will display the date and time verification was sent. Additionally, if the verification should be sent again, a 'Verify' option has been added. Select and the verification will be sent again.

The screenshot shows the 'EDIT CONTACT' interface with the following details:
