

# Database Query - Description Column Added (14757) [Enhancement]

Last Modified on 03/24/2023 10:09 am EDT

A Description column has been added to the Database Query screen to explain the field with the description from the database. If a description does not exist in the database, none will display for the field.

The screenshot shows the 'Database Query' interface. At the top, there is a 'SAVED QUERY' dropdown menu set to 'Active Services Zero Rate', with 'NEW', 'UPDATE', and 'SAVE AS' buttons. Below this is the 'ENTITIES' section, which includes 'Active Services' with a plus icon. The 'DISPLAY FIELDS' section contains a table with columns for 'ENTITY', 'SEQ', 'FIELD', 'ALIAS', and 'DESCRIPTION'. The 'DESCRIPTION' column is highlighted with a red border. A checkbox labeled 'Display Only Selected' is located in the top right corner of the table area.

ENTITY	SEQ	FIELD	ALIAS	DESCRIPTION
<input checked="" type="checkbox"/>	1	Division Id		
<input checked="" type="checkbox"/>	2	Division Name		
<input checked="" type="checkbox"/>	3	Site Id		
<input checked="" type="checkbox"/>	4	Site Name		
<input checked="" type="checkbox"/>	5	Address Line 1		
<input checked="" type="checkbox"/>	6	City		
<input checked="" type="checkbox"/>	7	State		
<input checked="" type="checkbox"/>	8	Zip		
<input checked="" type="checkbox"/>	9	Start Date		
<input type="checkbox"/>		Line of Business Id
