

# Services - Rate UOM Selection Options Updated in Charge Code Setup (14947)

Last Modified on 03/23/2023 12:21 pm EDT

The Rate UOM field in Charge Code setup has been updated to limit the list of options to types that relate to volume, weight, area, each (per unit) and length. Time based UOMs have been removed.

The screenshot shows a web form titled "ADD CHARGE CODE" with a "Charge Code" tab. The form contains various fields for setting up a charge code. The "RATE UOM" field is highlighted in yellow. The fields are arranged in two columns. The first column includes: CHARGE CODE, NAME, DOT DESCRIPTION, LINE OF BUSINESS, EQUIPMENT TYPE, MATERIAL TYPE, RATE UOM, TAXABLE, and GL ACCOUNT. The second column includes: ACTIVE, ENABLE NO CHARGE QUANTITY, ENABLE NEGATIVE AMOUNT, ENABLE MAX. WEIGHT CHARGE, ESTIMATED AVERAGE WEIGHT, ENABLE MANUAL CHARGE, ENABLE MINIMUM, ENABLE VENDOR, and ENABLE EST. CHARGE QUANTITY. The "RATE UOM" field is a dropdown menu, and the "ENABLE MAX. WEIGHT CHARGE" field includes a "UOM" dropdown menu.

Field Name	Field Type	Value
