

Vehicle Inspection Type

Last Modified on 08/19/2025 1:03 pm PDT

Pathway: *Setup > Operations > Vehicle Inspection Type*

The Vehicle Inspection Type Setup allows you to create driver-completed pre- and post-trip inspections, which help determine a truck’s operational condition. Inspection types created here are assigned to trucks in Truck Setup, ensuring that when drivers log into the mobile app, they complete the inspection specific to that truck type.

Perquisite Requirements

The **Vehicle Inspection Type Setup** screen requires vehicle inspection items to be created first in *Setup > Operations > Vehicle Inspection Item*. After the items are created, they can be added to a vehicle inspection type.

VEHICLE INSPECTION ITEM SETUP			SETUP > OPERATIONS > VEHICLE INSPECTION ITEM
ID	QUESTION	REQUIRED	
1000	Tires, Wheels, and Rims	Yes	
1001	Power Steering & Auto Trans Fluid	Yes	
1002	Engine Oil, Fuel, and Coolant	Yes	
1003	Service Brakes and All Connections	Yes	
1004	Parking (hand) Brakes(s)	Yes	
1005	Steering Mechanism(s)	Yes	
1006	Horn(s), backup alarm, rail-up alarm	Yes	
1007	Instruments and Gauges	Yes	
1008	Lights and Reflectors	Yes	
1009	Emergency Equipment	Yes	
1010	Windshield Wipers	Yes	
1011	Rear Vision Mirrors	Yes	

Permissions

The following permissions are required to use the Vehicle Inspection Type Setup screen:

Permission ID	Permission Name
24	Setup \ Operations

Add Vehicle Inspection Type

1. Select the **green +** icon to open the Add Vehicle Inspection Type tool.
2. Enter a **Name** for the Vehicle Inspection Type and click **Save**.

Add/Remove Vehicle Inspection Items

Items created in *Setup > Operations > Vehicle Inspection Items* will display here and can be toggled on or off to add them to a vehicle inspection type. When enabled, the item will appear on the driver’s vehicle inspection list.

Assign a Vehicle Inspection Type to a Truck

Pathway: Setup > Operations > Truck

After an inspection type is created, it can be assigned to a truck in **Truck Setup**. Once assigned and saved, it will populate on the Vehicle Inspections screen when the driver logs into the NavuNav mobile application.
