

# Accounts - Appointment Details Not Opening (15088)

Last Modified on 04/18/2023 9:10 am EDT

An issue has been resolved that prevented appointment details from opening when double clicked on in the Pending section of Customer Details.

The screenshot shows a table of pending appointments and a modal form for editing one. The table has columns for ID, Description, Assigned To, Date, and Notes. The modal form has fields for Type, Assigned To, Appointment Time, Duration, Location, Attendees, and a Note field.
