

# Truck Type

Last Modified on 06/17/2026 10:16 am PDT

**Pathway:** Setup > Operations > Truck Type

Truck Type Setup establishes and defines the distinct types of trucks utilized within the system and assists in turn-by-turn navigation by restricting the road options available to a specific truck type. This setup process further involves assigning specific truck types to individual trucks within Setup > Operations > Truck.

## Permissions

The following permission is required to access and work within the Truck Type Setup screen:

| Permission ID | Permission Name    |
|---------------|--------------------|
| 24            | Setup \ Operations |

## Truck Type Setup Field Descriptions

| Fields                                     | Descriptions  |
|--|---|
| <b>Name</b><br><i>Required</i>             | The name of the Truck Type.   |
| <b>External ID</b>                         | The identification number used by third party systems.  |
| <b>Transport Method</b><br><i>Required</i> | Select 'Truck'.   |
| <b>Require Equipment Count</b>             | The number of those truck types being entered into the system.  |
| <b>Tare Frequency</b>                      | The number of days before trucks of this type must be re-weighed. Once a truck reaches this threshold, it will be flagged, and the scale operator must record the tare weight to complete the ticket. |

|                       |   |
|-----------------------|---|
| <b>Height</b>         | The standard height for trucks of this type.                              |
| <b>Width</b>          | The standard width for trucks of this type.                               |
| <b>Size UOM</b>       | Specifies the unit for height and width measurements.                     |
| <b>Road Weight</b>    | The approximate weight for trucks of this type.                           |
| <b>Maximum Weight</b> | The highest weight the truck can reach when completely loaded with waste. |
| <b>Weight UOM</b>     | The unit of measure used for the weight measurement.                      |
| <b>Active</b>         | Indicates if the truck type is available for assignment to a truck.       |

## Truck Type Setup Steps

1. Select the **green +** to open Add Truck Setup.
2. Complete the following required fields:
  - Enter a **Name** for the truck type.
  - Select the **Transport Method** for the truck type.
3. Complete additional fields based on your company's setup requirements.
4. Click **Save** when finished.
