

Dispatch - Edit Route Record Downtime (15189)

Last Modified on 05/09/2023 3:27 pm EDT

Logic has been updated to the Reason Code drop down field, in the Add Downtime editor, to only display reason codes designated as 'Down Time'.

The screenshot displays a web application interface for editing route record downtime. The main window is titled "EDIT ROUTE RECORD DOWNTIME" and contains a table with columns for "DRIVER" and "TRUCK". A modal window titled "ADD DOWNTIME" is open, showing the following fields:

- TRUCK: 771
- DRIVER: Isabel Navarro
- START TIME: [Dropdown menu]
- END TIME: [Dropdown menu]
- REASON CODE: [Dropdown menu]
- NOTE: Flat Tire

At the bottom of the modal, there is a "SAVE" button. Below the modal, a larger "SAVE" button is visible on the main page.
