

Send Bulk Emails

Last Modified on 03/27/2024 9:46 am EDT

Pathway: Database > Send Bulk Emails

The Bulk Email screen is used to send large email campaigns to a select customer group using group filters. This tool requires the selection of a Notification Template. Notification templates are created in *Setup > System > Notification Template*. Bulk Email only uses templates assigned to the Account Notification and Site Notification template type.

Permissions

The following permission is required to use and send bulk emails from the Bulk Email screen:

Permission ID	Permission Name
359	Send Bulk Emails

Fields and Descriptions

The following descriptions apply to the fields and buttons found on the Bulk Email screen:

Field	Description
Bulk Email: Filters and Fields	
And/Or	<p>The And/Or operators are used when joining together two or more groups.</p> <ul style="list-style-type: none">• And: Allows you to create a condition that requires multiple criteria to be met simultaneously. This option provides a way to narrow down your email recipient data by adding more specific requirements.<ul style="list-style-type: none">◦ Example: "Give me all recipients whose title is Manager AND are in the Houston division."<ul style="list-style-type: none">▪ In this example, for a recipient to be included in the email they must qualify under both requirements.• Or: Allows you to create a condition that requires at least one of the specified criteria to be true. This option can be thought of as a way to broaden your email recipient data by including more possibilities<ul style="list-style-type: none">◦ Example: "Give me all recipients whose title is Manager, OR are part of the Houston division."<ul style="list-style-type: none">▪ In this example, for the recipient to be included in the email, only one of the qualifiers needs to be a true statement for them. They are either a manager, or they are part of the Houston division.

Add Group	Option to add an additional group filter to either create more specific requirements, or broaden and expand who will be included in the email. Upon selecting 'Add Group', you will need to select 'Add Filter' to define the filter parameters of the group.
Add Filter	The filter parameter a group is based upon.
Notification Template	The notification recipients will receive when the email is sent.
Email From	Identifies who the 'Sent From' contact is when the email is received.
Send Email	Sends the email. After clicking 'Send Email', a popup confirmation message will display to confirm you wish to send the message.
Preview	Select the 'Preview' button to review a list of recipients based on the current filter setup.
Add New Filter Fields	
Entity	Determines which data table the filter parameters apply to and pull from. <ul style="list-style-type: none"> • Site Active Services: Filters the column selection based on active services for sites. • Customer Information: Filters the column selection based on customer information.
Column	Identifies the data set the system will focus its search on to return results. <ul style="list-style-type: none"> • Example: Contact Title
Filter Parameters: Entry Field(s)	This consists of two parts, and the available options depend on what was selected from the column field. <ol style="list-style-type: none"> 1. After a selection has been made in the Column field, the filter parameter drop down populates with a list of options. This determines how the system will search through and qualify data. <ul style="list-style-type: none"> ◦ Example: Equals 2. Once a filter parameter has been selected, enter what you would like it to search on. <ul style="list-style-type: none"> ◦ Example: Manager

CUSTOMER INFORMATION CONTACT ID	CUSTOMER INFORMATION CONTACT NAME	CUSTOMER INFORMATION CONTACT TITLE	CUSTOMER INFORMATION CONTACT EMAIL	CUSTOMER INFORMATION CONTACT
65719	Joe Johnson	Manager		
66578	Haley	Manager		
68245	Samantha Benson	Manager		
68994	Ashley Herr	Manager		
72219	jose Hubert	manager		
72248	Jenifer Robbins	Manager		
72249	Oliver Franco	Manager		
72251	Nancy	Manager		
72253	Leon Hunt	Manager		
72314	Denise	Manager		
72349	Shelly Anderson	manager		
72358	Terry McAdams	Manager		
72381	Sandra Vaquez	Manager		

Referring to the image example above, in order for an email recipient to be included in the list, they need to meet either of the following conditions: they must have a title of either Manager **OR** Supervisor, **AND** the account they oversee must belong to the Houston division.

Send Bulk Email Setup - Single Filter Group

1. Click **Add Filter** to open 'Add New Filter'.
2. Select the **Entity**.
3. Select the qualifier from the **Column**.
4. Enter a filter parameter for the qualifier in the **Entry Field** (blank field that displays upon selection from the Column drop down).
5. Click **Save** to apply the filter.
6. Select the **Notification Template** that applies.
7. Enter who the email will be sent **From**.
8. Click **Send Email**.

Send Bulk Email Using Multiple Groups

1. Click **Add Filter** to open 'Add New Filter'.
2. Select the **Entity**.
3. Select the qualifier from the **Column**.
4. Enter a filter parameter for the qualifier in the **Entry Field** (blank field that displays upon selection from the Column drop down).
5. Click **Save** to create the filter group.
6. Repeat steps 1 - 5 above for any additional filter groups you need.
 - Apply either an **AND** or an **OR** intercessor between each group filter to either further refine (AND), or

broaden (OR) the recipient list.

7. Select the **Notification Template** that applies.
 8. Enter who the email will be sent **From**.
 9. Click **Send Email**.
