Truck Setup has been updated to include a new 'Last Odometer' column that will display the last mileage reading and date it was recorded. In addition, a new Attributes tab was also added to "Add Truck" to record supplemental truck information.

The screenshot displays the 'TRUCK SETUP' interface. At the top, there are filters for 'DIVISION' (All) and 'LINE OF BUSINESS' (All), along with a search bar and a 'Show Inactive' checkbox. Below the filters is a table of trucks with columns: NAME, LICENSE PLATE, DIVISION, LINE OF BUSINESS, TRUCK TYPE, FUEL TYPE, VOLUME CAPACITY, COM... RATIO, WEIGHT CAPACITY, TARE WEIGHT, INSPE... TYPE, CAMERA SYSTEM, CAMERA ID, ONBOARD SCALE, LAST ODOMETER, and STATUS. The 'LAST ODOMETER' column is highlighted in red. An 'ADD TRUCK' modal form is open, showing various input fields for truck details. The 'Attributes' tab is highlighted in red.
