

Dispatch - Health Score Added (14987)

Last Modified on 06/23/2023 2:09 pm EDT

A new Health Score view option has been added to the Dispatch screen. In addition, when viewing routes in Standard and other views, a color coded Health Score status indicator displays next to each route. Hovering over the indicator will display part of the breakdown of how the status was determined. Additional documentation to come.

Status Indicator Colors:

- Red = Health scores less than or equal to 60%
- Orange = Health scores less than 75%
- Yellow = Health scores less than 90%
- Green = Health scores great than or equal to 90%

The screenshot displays the Dispatch application interface. At the top, there is a header 'DISPATCH' and a navigation bar with 'FROM' (06/21/23), 'TO' (06/21/23), and 'DIVISION' (CORPUS, DAYTON, HEARNE, HILLSBORO, HOUSTON, QAWASTE). Below this, a dropdown menu is set to 'Health Score', which is highlighted with a red box. The main table shows route details for 'COR 201' with a health score of 77% (yellow background), balancing score of 60% (red background), compactness score of 94% (green background), and interlacing score of 100% (green background). A tooltip is shown over the 'COR 201' route, displaying a 'Health Score: 67%' (orange indicator) and a 'Score Breakdown' with Balancing: 86%, Compactness: 69%, and Interlacing: 80%. The tooltip also lists other routes like 'COR 202', 'COR 203', 'DAY 203', and 'HOU 201' through 'HOU 206' with their respective health scores and truck numbers.
