

# Truck Setup - Active/Inactive Setting Added (15484) [Enhancement]

Last Modified on 08/04/2023 9:27 am EDT

Enhancements have been made to Truck setup screens to allow users to mark trucks as 'Active' or 'Inactive' for service use.

In Add/Edit Truck, a 'Mark Active' and 'Mark Inactive' button was added to the bottom of the screen.

- Mark Active:
  - Displays if a truck **is not** active.
- Mark Inactive:
  - Displays if a truck **is** active. If a truck is marked 'inactive' and is currently assigned to a route record, a confirmation window displays for the user to acknowledge marking a truck inactive will remove it from any future routes.

The Truck Setup screen has also been updated to reflect the active status of trucks and includes an 'Active' column and a "Show Inactive" checkbox.

The screenshot shows the 'EDIT TRUCK' form with the following fields and options:

- NAME:** 140
- DIVISION:** HOUSTON
- LINE OF BUSINESS:** Residential
- OWNERSHIP:** Internal
- SITE:** (with search icon)
- ODOMETER UOM:** (with dropdown and close icon)
- TRUCK TYPE:** (dropdown)
- FUEL TYPE:** Other
- VEHICLE INSPECTION TYPE:** DVIR
- LICENSE PLATE:** (text input)
- VIN:** (text input)
- SPEED UOM:** (dropdown with close icon)

Below the main form, there are tabs for: Capacity, Onboard Scale, Camera System, Maintenance Plan, and Attributes.

Under the 'Capacity' tab, the following fields are visible:

- VOLUME CAPACITY:** 0.00, UOM: cubic yard
- COMPACTION RATIO:** (spinner)
- WEIGHT CAPACITY:** 0.00, UOM: ton
- TARE WEIGHT:** (text input), UOM: (dropdown)

At the bottom of the form, a **MARK INACTIVE** button is highlighted with a red box.

Pathway: Setup > Operations > Truck
