

Setup (Services) - Excel Export Option Added to Service Code and Charge Code Setup (15542) [Enhancement]

Last Modified on 08/04/2023 3:09 pm EDT

An enhancement has been made to add an Excel export option to both the Service Codes Setup screen and the Charge Codes Setup screen.

The screenshot displays the 'CHARGE CODE SETUP' interface. At the top, there are filters for 'LINE OF BUSINESS' (set to 'Roll Off'), 'EQUIP TYPE' (set to 'All'), and 'MATERIAL TYPE' (set to 'All'). A search bar is visible in the top right. The main area contains a table with columns: ID, NAME, LINE OF BUSINESS, EQUIPMENT TYPE, MATERIAL TYPE, RATE UOM, IS TAXABLE, TAXABLE CLASS, GL ACCOUNT, TYPE, WEIGHT CHARGE, ENABLE WASTE, and ACTIVE. A red box highlights an Excel export icon in the top right corner of the table area.
