

Dispatch - Excel Export Option Added in Driver Timeline (15610) [Enhancement]

Last Modified on 08/09/2023 1:15 pm EDT

The 'Re-sequence Route(s) From Timeline' screen has been updated to include the option to export the routes to Excel. This screen is accessed from the Driver Timeline screen by clicking on the 'Preview Route Sequence Using Completion Order' button.

The screenshot displays the 'TEST2 USER - DISPATCH ON JUL 25, 2023' interface. At the top, it shows summary statistics: HOURS: 0.05, MILES: 0, FUEL: 0 Gallons, and an 'Enable Geocode Update' checkbox. A green button labeled 'PREVIEW ROUTE SEQUENCE USING COMPLETION ORDER' is visible. Below this is a table with columns: TIME, SEQ, LOCATION, REFERENCE #, QTY, and NOTE. The table lists three time slots: 2:52 pm (13753.0), 2:56 pm (Liberty Site, 1234 Staffordshire Ct, West Ch..., 6166780, 1, Service Completed), and 9:32 pm (HOMEBASE). A map is shown on the right side of the interface. A modal window titled 'RE-SEQUENCE ROUTE(S) FROM TIMELINE' is overlaid on the screen. It contains a table with columns: ORIGINAL ROUTES, RESULTING ROUTES, SEQUENCED STOPS, UNCHANGED STOPS, LOCATION, QTY, SERVICE CODE, FREQUENCY, ROUTE, SEQ, DOW, NEW ROUTE, NEW SEQ, and EFFECTIVE DATE. The table shows two rows of route information. A green 'POST' button is at the bottom of the modal. A red arrow points to the 'PREVIEW ROUTE SEQUENCE USING COMPLETION ORDER' button, and another red arrow points to the Excel export icon in the modal window.
