

Generator Type Setup

Last Modified on 09/19/2023 10:23 am EDT

Pathway: [Setup](#) > [Account](#) > [Generator Type](#)

The Generator Type Setup screen is used to establish classifications for the different categories of waste producers that a company serves.

The screenshot displays the 'GENERATOR TYPE SETUP' interface. At the top, there is a blue header with a green plus icon on the left and a refresh icon on the right. Below the header is a table with the following data:

ID	NAME	GL SEGMENT	REQUIRE EPA ID
0	Not Applicable		No
1	Small Quantity Generator		No
2	Large Quantity Generator		No
3	Conditionally Exempt		No
4	Public Collection		No

An 'ADD GENERATOR TYPE' modal form is overlaid on the table. It contains three input fields: 'NAME' (text input), 'GL SEGMENT' (text input), and 'REQUIRE EPA ID' (dropdown menu with 'No' selected). A 'SAVE' button is located at the bottom of the modal.

Permissions

The following permission(s) are required to access and use Generator Type Setup:

Permission ID	Permission Name
23	Setup \ Account

Fields and Descriptions

Field	Description
Name	The Name of the generator type that will be displayed for selection.
GL Segment	The GL segment assigned for this generator.
Require EPA ID	When the generator type involves medical waste require the EPA ID for this generator type.

Add Generator Type Steps

1. Click the **green +** icon to open the Add Generator Type editor.
2. Complete the following required fields:
 - Enter a **Name** for the Generator Type.
3. Complete additional fields based on your company's setup requirements.
4. Click **Save** when finished.
