

Dispatch - Add Ability To Set Default Driver, Truck and Help (15559)

Last Modified on 08/21/2023 8:23 am EDT

An enhancement has been made within Dispatch, you can now set or update the default driver, truck or helpers when editing a route record. If the assigned truck, driver or helpers differ from the route defaults the user now has the ability to select 'Set as Default' and save. This will update the route defaults moving forward.

The screenshot shows a web form titled "EDIT ROUTE RECORD" with a green header bar containing a question mark and a close button. The form contains the following fields and options:

Field Name	Value	Set as Default
TRUCK	970	<input type="checkbox"/>
DRIVER	Matthew Van Doren - Admin - NS	<input checked="" type="checkbox"/>
HELPER 1		<input type="checkbox"/>
HELPER 2		<input type="checkbox"/>
MILES		
START TIME		
END TIME		
STATUS	Scheduled	
DISPOSAL LOCATION		
TRANSPORTER		
START YARD		
END YARD		

A green "SAVE" button is located at the bottom center of the form.
