

Accounts (Route Scheduling) - Duplication of Service Record When Rescheduling to Another Day (15640)

Last Modified on 08/28/2023 10:27 am EDT

Previously, rescheduling a recurring service to a different day of the week resulted in the creation of work orders for both the original and rescheduled days. This issue has been resolved, and now only a single work order is generated for the newly scheduled day.
