

System (User) - Last Login Not Displaying on Edit User Screen (15692)

Last Modified on 08/29/2023 4:29 pm EDT

The problem causing the absence of the last login timestamp on the Edit User screen has been resolved.

The screenshot shows the 'USER SETUP' interface. At the top, there is a 'DEPARTMENT' dropdown set to 'All' and a 'HIDE INACTIVE' checkbox checked. Below this is a table of users with columns for ID, STATUS, FIRST NAME, LAST NAME, EMAIL, PHONE, OFFICE PHONE, TITLE, and DEPARTMENT. User ID 5 is highlighted. An 'EDIT USER - JOHN DOE (ADMIN-NS) (5)' modal is open, showing a form with the following fields: STATUS (Active), FIRST NAME (John), LAST NAME (Doe), EMAIL (John@fakeEmail.com), CELL PHONE ((999) 999-9999), OFFICE PHONE ((999) 999-9999), and TITLE (Admin-NS). The 'LAST LOGIN' field is highlighted with a red box and displays 'Aug 29, 2023 2:27 pm'. On the right side of the modal, there are options for 'DEFAULT HOMEPAGE' and 'ONLINE IMAGE'.

Pathway: Setup > System > User > (select) User
