

Route Management - Import Ignoring Start Date Entered on Import File (15712)

Last Modified on 09/05/2023 1:01 pm EDT

A previous issue has been resolved that caused the import in Route Management to ignore the start date entered in the import file.

The screenshot shows the 'Route Management' interface. At the top, there are tabs for 'Pending', 'Current', and 'Re-Number'. Below these are several dropdown menus for location, area, service type, and day of the week, along with 'LOAD', 'EXPORT', and 'IMPORT' buttons. A search bar and a 'SERVICE CODE FILTER' are also present. The main part of the interface is a table with the following columns: LOCATION, QTY, SERVICE CODE, FREQ / NEXT SVC, ROUTE, SEQ, DOW, NEW ROUTE, NEW SEQ, NEW START DATE, and NEW WEEK. A red box highlights the 'NEW START DATE' column, which contains dates like '09/15/23' and '09/18/23'.
