Verify a Site's Tax Region

Individual Site Verification

1. Select any of the tabs to view the sites it includes.
2. Click on the site you would like to review and verify. This will open the Edit Site popup editor.
3. Click on the drop down for the Tax Region field and select the region that applies.
4. Select Save when finished. Upon Save, the system will auto-refresh count totals for the affected tab(s).

Verify All

1. Select the 'Not Verified' tab.
2. Click on the 'Verify All' button. This will trigger a Confirmation popup.
3. Continue with the Validation by selecting "OK," or select "Cancel" to close the Confirmation and stop the verification process.

Tax Verification Screen Tabs

The section below reviews each of the tabs displayed on the Tax Verification screen.

Verified

The "Verified" tab displays a list of all sites for which the tax region has been confirmed. When you access the Edit Site screen, this confirmation is represented by a green check mark next to the Tax Region.

The screenshot displays the 'TAX VERIFICATION' interface. At the top, there are filters for 'DIVISION' (HOUSTON) and 'SERVICE REGION' (HOUSTON OPEN MARKET). Below these are tabs for 'Verified (10)', 'Not Verified (486)', 'Failed (2)', 'Address Not Found (0)', and 'Errors (0)'. A 'VERIFY ALL' button is visible. The main table lists sites with columns for ID, NAME, STATUS, ADDRESS, SALES REP, TAX REGION, and VERIFICATION. An 'EDIT SITE' modal window is open for site ID 48931091, showing fields for NAME, ADDRESS LINE 1, CITY/STATE/POSTAL CODE, PHONE 1, PHONE 2, OLD ID, NOTE, WARNING ON OPEN, and ACCESS INFORMATION. The 'TAX REGION' field in the modal is highlighted with a green checkmark, indicating it is verified. A red arrow points to the 'TAX REGION' field in the modal, and another red arrow points to the 'TAX REGION' field in the table. A red box highlights the 'VERIFICATION' column in the table, showing dates for each site.

Not Verified

The "Not Verified" tab displays a list of all sites that do not have a verified tax region. This is indicated with a grayed-out check mark on the Edit Site screen. From the 'Not Verified' screen users can individually click through and verify each site, or select the 'Verify All' button and the system will run the verification process in the background.
