In the NavuNav Settings of a charge code, if 'Hide In NavuNav' is set to "Yes," the charge code **will not** display in the *NavuNav Available Extra Charges* section on the Line of Business Setup screen.

## Charge Code Setting

The screenshot shows the 'UPDATE CHARGE CODE' interface with the 'Charge Code' tab selected. The form contains various fields for configuring a charge code. The 'NavuNav Settings' section is highlighted with a red box, and the 'HIDE IN NAVUNAV' field is highlighted with a yellow background, showing it is set to 'Yes'.
