Disposal Records (Android and iOS) - New Time Fields Added (14171) [Enhancement]

Last Modified on 11/01/2023 11:08 am EDT

The Add/Update Disposal Entry screen has been enhanced to include Start Time and End Time fields. By default, when a driver creates a disposal record, the start timestamp will use the current date and time. If a driver enters an End Time, the system will default to the date of the start timestamp.

Added and updated start/end timestamps display in Dispatch in views that include disposal records.
