

NavuNav Android - Return To Route List Feature (15558) [Enhancement]

Last Modified on 11/01/2023 2:47 pm EDT

An enhancement has been made to the Android version of the NavuNav application to return the driver back to the Route List screen after they have completed a work order. This feature is enabled on the Work Type in *Setup > Operations > Work Type*.

The screenshot shows the 'UPDATE WORK TYPE' screen with the 'NavuNav Settings' tab selected. The settings are as follows:

Setting Name	Value
ENABLE DRIVER PHOTO PROMPT	No
ENABLE DRIVER ENTERED LABEL WEIGHTS	No
ENABLE DRIVER TO SET IN PROGRESS	No
RETURN TO ROUTE LIST ON COMPLETION OF WO	Yes

A green 'SAVE' button is located at the bottom left of the screen.

Pathway: *Setup > Operations > Work Type > NavuNav Settings; NavuNav*
