

# Inventory Management - Incorrect Serial Number Displaying (15945)

Last Modified on 11/06/2023 9:21 am EST

The issue causing the wrong serial number to display in the Inventory Adjustment pop-up when the Yards section was collapsed has been resolved.

The screenshot displays the 'INVENTORY MANAGEMENT' interface. At the top, there are filters for 'LINE OF BUSINESS' (set to 'All') and 'DIVISION' (set to 'All'). A search bar and a refresh icon are also present. Below the filters is a table with columns: 'LINE OF BUSINESS', 'EQUIPMENT TYPE', 'SERIALIZED', 'TOTAL QUANTITY', 'SITE QUANTITY', and 'YARD QUANTITY'. The table lists various equipment types such as '10 Yard FL (Ser)', '2 Yard FL', '2 Yard FL VIP', etc.

Below the table, there are filters for 'LOCATION NAME' and 'ADDRESS', and buttons for 'ADD TO YARD' and 'ADD TO SITE'. A section for 'YARDS (14)' and 'SITES (11)' is visible. A table below this section lists equipment with columns: 'LOCATION NAME', 'ADDRESS', 'QUANTITY', 'SERIAL NUMBER', 'LAST ACTIVITY', 'DAY(S) SINCE LAST ACTIVITY', and 'AVG DAY(S) BETWEEN ACTIVITY'. A red arrow points from a green checkmark icon in the 'SITES' table to the 'INVENTORY ADJUSTMENT' pop-up window.

The 'INVENTORY ADJUSTMENT' pop-up window shows the following details:

- EQUIPMENT TYPE: 10 Yard FL (Ser)
- QUANTITY: 1
- SERIAL NUMBER: 5435435
- MOVE TYPE:  Move to Site  Move to Yard  Remove
- NOTE: (Empty text area)

At the bottom of the pop-up window is a 'POST ADJUSTMENTS' button.

Pathway: Operations > Inventory Management
