

ERP Export Mapping Setup - "Name" Field Added (16074) [Enhancement]

Last Modified on 12/11/2023 11:27 am EST

A "Name" field has been incorporated into the ERP Export Mapping Setup screen, which the Tax Region Setup screen will now utilize for the ERP Label. Previously, the ERP ID was displayed.

The image shows two screenshots from a software application. The top screenshot is the 'ERP EXPORT MAPPING SETUP' screen. It features a table with columns 'ID', 'ERP ID', 'NAME', and 'TYPE'. A single row is visible with ID 1000, ERP ID 12345, NAME 'ERP Name 1', and TYPE 'Tax'. A modal window titled 'ADD ERP EXPORT MAPPING' is open in the center, containing input fields for 'ERP ID', 'NAME', and 'TYPE', with a 'SAVE' button at the bottom. The 'NAME' field in the modal is highlighted with a red border. The bottom screenshot is the 'TAX REGION SETUP' screen. It has a table with columns 'TAX REGION ID', 'NAME', and 'MAP AREA'. A list of tax regions is shown, with ID 1000 highlighted. Below this is a 'Tax Rate' section with a table containing columns 'ID', 'TAX REGION', 'TAX', 'LEVEL', and 'ERP LABEL'. The 'ERP LABEL' column contains 'ERP Name 1' and is highlighted with a red border.
