

# Accounts - Logic Updated to Per Unit Rate Field (16170, 16286) [Enhancement]

Last Modified on 01/30/2024 9:08 am EST

Logic has been updated to the Per Unit Rate field for Manual Charges and Active Services to allow users to enter a 7 digit rate. Previously, anything over 999,999 was not supported and an error message would display.

The screenshot shows a modal window titled "ADD/EDIT MANUAL CHARGE" with a blue header. The form contains the following fields:

- CHARGE CODE: 18 Gal Box Per Container - RMW
- QUANTITY: 1.00
- PER UNIT RATE: 1000000.0000 (highlighted in yellow)
- AMOUNT: 1000000.00
- PO NUMBER: (empty)
- BLANKET PO: (empty)
- DATE: 01/18/2024
