

Bulk Update - Upload Source File Limited To CSV or XLSX Extensions (16124)

Last Modified on 01/18/2024 9:35 am EST

Bulk Update has been updated to only allow .csv or .xlsx file formats to be uploaded in Upload Source File.

The screenshot displays the 'BULK UPDATE' interface. At the top, there is a header bar with 'BULK UPDATE' on the left and 'DATABASE > BULK UPDATE' on the right. Below the header, there are filters for 'STATUS' (set to 'Pending'), 'TARGET TABLE' (set to 'All'), and 'TARGET FIELD' (set to 'All'). A search bar is also present. The main area contains a table with columns: 'DESCRIPTION', 'STATUS', 'CREATED BY', 'PROCESSED BY', and 'TARGET TABLE'. A modal window titled 'ADD BULK UPDATE BATCH' is open in the center, containing fields for 'DESCRIPTION', 'TARGET TABLE', and 'TARGET FIELD', along with an 'UPLOAD SOURCE FILE' section that includes a 'Select File...' button and a green 'BROWSE...' button. A 'SAVE' button is located at the bottom of the modal. The table behind the modal shows several entries, including 'Bill Group Update', 'Site Bill Group Update', and 'mvd_test', with their respective statuses and creation/processing dates.
