

Operations (Setup) - Disposal / Ship Location Automatic Transfer Work Order Issue Resolved (16171)

Last Modified on 01/23/2024 1:05 pm EST

The issue preventing the selected transfer site from loading in the Automatic Transfer Work Order section of the Disposal / Ship Location screen has been resolved.

The screenshot shows a web application interface for updating disposal or ship location settings. The main form is titled "UPDATE DISPOSAL / SHIP LOCATION" and has two tabs: "Basic Settings" and "Label Scale Settings". The "Label Scale Settings" tab is active. The form contains various input fields and dropdown menus for site information, ownership, and operational parameters. A modal window titled "Automatic Transfer Work Order" is overlaid on the bottom right of the form, displaying a list of fields with their corresponding values.

Field	Value
SITE ID	48917000001
SITE NAME	QA Waste Transfer
SERVICE CODE	Manifest Consolidation
EVENT TYPE	Outbound / Shipping

Additional form fields visible in the background include: NAME (QA Waste Transfer), ABBREVIATION (QA), TYPE (Transfer Station), OWNERSHIP (Internal), DIVISION (DAYTON), ADDRESS LINE 1 (1234 Meeting St), CITY (Houston), STATE (TX), POSTAL CODE (45069), PHONE ((513) 555-6565), CONTACT NAME (Stan Man), EPA ID (D_EPA234), STATE ID (D_ST234), GEOFENCE RADIUS (31), AVERAGE DURATION (0), INTER-COMPANY BILL FROM ACCOUNT, INTER-COMPANY CHARGE CODE, ACTIVE (Active), ENABLE INBOUND ORDER (Yes), ENABLE OUTBOUND ORDER (Yes), DEFAULT SCALE UOM (ton), WEIGHT UOM (ton), VOLUME UOM (cubic yard), DEFAULT TRANSPORTATION METHOD (Truck), DEFAULT SCALE TICKET FORMAT, ONLINE ICON (Browse...), SIGNATURE (Browse...), MANIFEST SIGNATURE NAME (Stan Manny), and LINK SITE.

Pathway: Setup > Operations > Disposal / Ship Location
