

Inbound/Outbound - Destination Options For Outbound WO's Limited Based On Division (16245) [Enhancement]

Last Modified on 02/02/2024 11:18 am EST

The logic for the Destination field in Outbound work orders has been enhanced to restrict options according to the division linked with the Disposal/Ship Location and Site.

The screenshot shows the 'CREATE ON CALL ORDER' form. At the top left, the title 'CREATE ON CALL ORDER' is highlighted with a red arrow. The form includes several input fields: 'SCHEDULE DATE' (01/09/24 Tuesday), 'SERVICE CODE' (Manifest Consolidation), 'ORDER TYPE' (Outbound / Shipping - Transfer), and 'QUANTITY' (1). Below these are fields for 'REQUESTED BY', 'CONTACT', and 'REASON CODE'. An 'ORDER NOTES' section contains a 'PREPAYMENT' icon. The 'PO NUMBER' and 'BLANKET PO' fields are empty. The 'EXTERNAL ID' field is also empty. The 'SHIPPING LOCATION' dropdown is open, showing a list of locations: CHAMBERS COUNTY LF, CHAMBERS COUNTY LF-CUST PD, CITY OF BEAUMONT LF, COAST PLAINS LF, DIRT CHEAP MULCH, FCC HOUSTON MRF, HOMEBASE, ITR MRF, OMNI METAL, QA waste Processing, QA Waste Transfer, Republic, and REC. MAT. & RECYCLING. A red arrow points to the 'DESTINATION' dropdown menu. The 'TRANSPORTER' dropdown is also open, showing a list of transporters. The 'BILL OF LADING' field is empty. The 'CHARGES' section has a '+' icon and two checkboxes: 'Charges must match Equipment' and 'Charges must match Material'. Below this is a table with columns: 'GROSS QTY', 'NO CHARGE QTY', 'CHARGE QTY', 'UOM', and 'CHARGE CODE'. The table is currently empty. At the bottom of the form, there is a 'CREATE' button.

Pathway: Operations > Inbound/Outbound > Outbound (tab) > Select Work Order
