

# NavuNav (Android) - Engine Hours Captured on Check In and Check Out (15375) [Enhancement]

Last Modified on 02/07/2024 1:05 pm EST

An 'Engine Hours' field has been added to both the Check In and Check Out screens of the Android NavuNav application. Information captured here is recorded to the truck in Navusoft.

The image displays two overlapping mobile application screens. The background screen is titled 'Check In' and shows a dropdown menu for 'Truck' with the value '584', a 'Start Time' field with '11:10 AM', an 'Odometer' field with '78,972', and a highlighted 'Engine Hours' field with the value '78,972.9'. The foreground screen is titled 'Check Out' and shows the same 'Truck' dropdown with '584', an 'End Time' field with '11:12 AM', an 'Odometer' field with '80,068' and a 'miles' unit label, and a highlighted 'Engine Hours' field with the value '80,068.98'. A green 'Set' button is located at the bottom of the 'Check Out' screen.

Application: *Android*
