Last Modified on 03/06/2024 3:42 pm EST

Previously, users encountered an issue where the print option on the Invoice Notification Summary screen was unresponsive when attempting to print invoices.

The screenshot displays the 'INVOICE NOTIFICATION SUMMARY' interface. A modal window is open, showing a table of invoice notifications. A red arrow points to a printer icon in the top left of the modal. Another red arrow points to the 'NOTIFICATIONS' section in the bottom right of the main interface, which is highlighted with a red box.
