

Operations (Setup) - Updating a Yard's Address is not Saving (16422)

Last Modified on 03/08/2024 11:13 am EST

An issue has been resolved that prevented an updated address to a Yard from saving.

The screenshot displays the 'YARD SETUP' interface. A table lists yards with columns for ID and NAME. An 'UPDATE YARD' modal is open, showing the following fields:

ID	NAME
1002	HOMEBASE
1003	Home Yard - Corpus
1004	P
1005	S
1006	L

Field	Value
NAME	HOMEBASE
ABBREVIATION	Home
ADDRESS LINE 1	1234 S Pearland Ave
ADDRESS LINE 2	
CITY/STATE/POSTAL CODE	Pearland TX 77581-5123
GEOFENCE RADIUS (METERS)	10
AVERAGE DURATION (MINS)	0

At the bottom right of the modal, it says 'Saved.'

Pathway: Setup > Operations > Yard
